CENTRAL FAX CENTER**JUN 03 2005****IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

I hereby certify that this correspondence is being facsimile transmitted, under 37 CFR, Section 1.8, to the Commissioner for Patents, Alexandria, VA 22313

ON: June 3, 2005 BY: 
(Date) (Lori M. Friedman)

To the Attention of: Examiner J. Pak
Fax No.: (571) 273-8300

Lori M. Friedman
300 Benton View Drive
Philomath, OR 97370

Telephone: (541) 929-4784

Facsimile: (541) 929-4754

Applicant: Smith, RL et al
Group Art Unit: 1616

Application No.: 10/616,047 Filed: 7-7-2003
Docket No. 0723 Examiner: J. Pak

Title: Stable Hydrogen Peroxide Compositions, Products and Methods of Use

Message: Dear Examiner Pak,

The following 3 pages contain the information we discussed yesterday concerning a supplemental amendment re the above-cited case. The first two pages contain definitions of the word 'topical' from "answers.com". These definitions will hopefully allow 'topical' to replace 'non-ingestible' in Claims 1, 6, 24 and 29 of the response to first OA now pending.

The last page reports how lethal certain topical medicaments can be if accidentally swallowed.

Thank you very much for the telephone interview yesterday. I hope this supplemental amendment will put the case in condition for allowance.

Respectfully submitted,

Lori M. Friedman
Reg. No. 35,143

Pertains to noun: topic (meaning #2)

Meaning #3: of interest at the present time

Wikipedia
topical

In medicine, a **topical** medication is applied to body surfaces such as the skin or mucous membranes such as the vagina, nasopharynx, or the eye. Some hydrophobic chemicals such as steroid hormones can be absorbed into the body after being applied to the skin in the form of a cream, gel or lotion. Transdermal patches have become a popular means of administering some drugs for birth control, hormone replacement therapy, and prevention of motion sickness.
